

The agents
walked away
while he lay
dead there
in the street

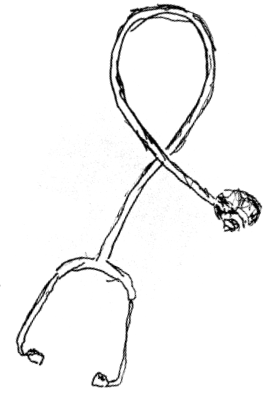

And for this he was
shot ten times,
pepper sprayed
and beat

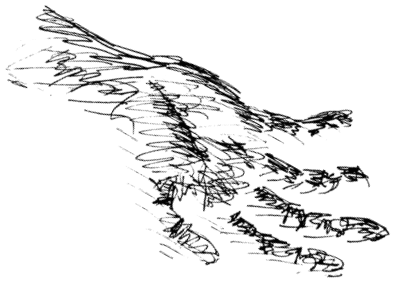

When ICE hit
Minneapolis
he stood up
for his town
He tried to help
a woman who
the agents had
shoved down

He took care of
our sick vets
in intensive care
each day

His final words
were asking her,
"are you okay?"

When our children
ask how we
fought back

what words
will you say?

you can help
ABOLISH ICE
